

**Professional Learning Agreement
for
SMU Master Physics Teacher Certificate
Modern Physics Module, Fall 2015**

Classes for this module will run 9 am - Noon, Saturdays, Sep 12 - Dec 12 (excluding the weekends before and after Thanksgiving). There are no tuition fees.

The class size is capped at 20. Participants will attend punctually and regularly the classes at SMU. A reasonable number of missed or partially- missed classes may be made up by satisfactory completion of a related assignment. Participants will complete reading assignments – an hour or two per class is the guideline - to the best of their ability and knowledge level.

At the beginning/end of the module, there will be a straightforward conceptual pre/post-test for participants to evaluate content understanding. A certificate of PD and \$250 training stipend will be awarded upon satisfactory completion of the module (attendance and test). All participants will become members of SMU's network of DFW physics teachers, which we keep connected with occasional special lectures and activities.

To secure your place on this module, please complete your details below and return this form together with a check for the materials fee of \$100 (waived for Texas teachers) to Dr. Simon Dalley, SMU Physics Department, PO Box 750175, Dallas, TX 75275-0175. SMU will provide all materials for the course (textbook, lab supplies, etc.).
