

# FORMS OF INDUCTION AND SELF-INDUCTANCE

Prof. Stephen Sekula

11/8/2010

Supplementary Material for  
PHY1308 (General Physics -  
Electricity and Magnetism)

# ANNOUNCEMENTS

- Homework 10:
  - Due today by 5pm
  - Covers CH26, CH27.1-27.2
- Homework 11:
  - Available by the end of the day
  - Covers the remainder of CH27
- Next Exam
  - November 19, in class
  - Covers Chapters 26-27 (magnetism)

# EXTRA CREDIT #4

- Special Topics
  - I will devote about 1 lecture at the very end of the course to "special topics" of your choosing
  - Topics must be within physics but can be anything
  - Extra Credit:
    - 5 points on the next exam for submitting a special topic suggestion
      - Required: a one-sentence description of the topic and one paragraph explaining why others in the class should learn about it
    - 5 more points if I choose your topic.
      - Multiple submissions on the same topic yield 5 additional points for all who suggest it, if it's chosen.

*Submissions due by 9am Nov. 19*
