

THINK BIG: STATISTICAL MECHANICS I

Prof. Stephen Sekula
(3/16/2010)

Supplementary Material for
PHY 3305 (Modern Physics)
Harris, Ch. 9.1, 9.3, J-8

TABLE OF CONTENTS

- Reminders
- Review of last class
 - Superfluidity
- Park your car and win free stuff!
- Reliable predictions and big numbers

REMINDER

- In-class presentation topics:
 - Deadline: FRIDAY!
 - Consult with me and inform me of your ideas

REVIEW

- Review will be more extensive today
 - spin is a key idea going forward
 - let's clear the post-spring-break cobwebs

SPHERICAL POLAR COORDINATES

"radial"

"polar"

"azimuthal"

THE HYDROGEN ATOM

Cross section of a hydrogen atom

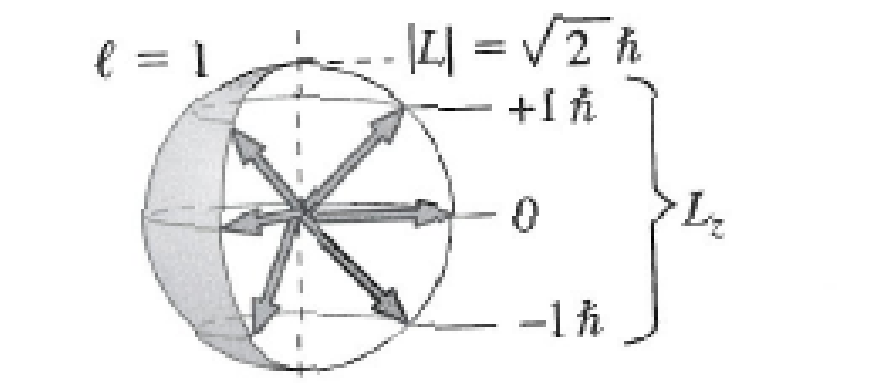

VISUALIZING L, L_z QUANTIZATION

$z = 0$
 $p_z = 0$
 Impossible

$\Delta z \neq 0$
 $\Delta p_z \neq 0$
 Possible

STERN-GERLACH EXPERIMENT

BOSONS AND SUPERFLUIDITY

<http://www.youtube.com/watch?v=2Z6LJbwxBZI>

PARK YOUR CAR, WIN FREE COUPONS!

A collection of spaces that achieves the same outcome (e.g. the same coupon winners) is a "macro-state"

Each space is a "micro-state"

RELIABLE PREDICTIONS

RELIABLE PREDICTIONS

RELIABLE PREDICTIONS

0 1 2 3 4

(a)

(a)

RELIABLE PREDICTIONS

ROADMAP

- Statistical Mechanics
 - or, "what happens when a bunch of particles do stuff"
- Solid-state physics
 - quantum mechanics and the structure of atomic matter
- Nuclear physics
 - quantum mechanics and the structure of the atomic nucleus
- Particle physics
 - quantum mechanics, relativity, and the fundamental structure of the universe

NEXT TIME

- Statistical Mechanics II
 - The Boltzmann Distribution
 - Classical Averages
 - Quantum Distributions
- Reading: Harris Ch. 9.3-9.5
