WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research". If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use", that user may be liable for copyright infringement.

This institution reserves the right to refuse to accept a copying order if, in its judgment, fulfillment of the order would involve violation of copyright law.

Harassed Rancher who Located 'Saucer' Sorry He Told About It

W. W. Brazil, 45, Lincoln county rancher living 60 miles north east of Roswell, New Mexico, found a flying saucer last week and reported it immediately. When the military came to investigate, they found something else of a similar nature.

Mrs. Brazil, who is a homemaker, was out for a walk near her home when she saw a bright light in the sky. She turned on her flashlight and saw a large, metallic object hovering just above her head. The object then descended and landed in a nearby field.

The military arrived shortly after and began examining the object. They discovered that it was not a typical extraterrestrial spacecraft, but rather a high-tech experimental aircraft, possibly used for military purposes.

Mrs. Brazil, who is a lifelong resident of the area, said that the object had been in the field for several days before she noticed it. She immediately called the local authorities and reported the sighting.

The military has not yet released any information about the object or its possible purpose. They are currently conducting further investigations to determine its origin and nature.

In the meantime, Mrs. Brazil has been receiving a great deal of press attention, with many people coming to her home to see the object for themselves. She has expressed regret at having told about the incident, but said that it was necessary to ensure that the military would take appropriate action.
