WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research". If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use", that user may be liable for copyright infringement.

This institution reserves the right to refuse to accept a copying order if, in its judgment, fulfillment of the order would involve violation of copyright law.

RAAF Captures Flying Saucer On Ranch in Roswell Region

House Passes Tax Slash by Large Margin

Defeat Amendment By Demos to Remove Many from Rolls

Washington, July 8 (AP)—The house, passed today the Republican-backed bill, to cut income taxes by \$4,000,000,000 annually for 49,000,000 taxpayers, beginning Jan. 1.

It goes to the senate where approval also is forecast.

The vote was 302 to 11, or more than the two-thirds majority needed to override a presidential veto.

The action, which may encounter another presidential veto, came after Speaker Martin (R-Mass.) personally appeal to the house to pass the bill by such a decisive vote—as to persuade the president that the people should have this delayed justice.

The measure is identical with one vetoed by President Truman June 18, as "the wrong kind of tax reduction at the wrong time."

Security Council Paves Way to Talks On Arms Reductions

Lake Success, July 8 (AP)—The United Nations security council today approved an American blueprint for arms reduction discussions despite a Russian warning that the plan would bring about a collapse of arms regulation efforts.

The vote was 9 to 0, with Russian and Poland abstaining.

In view of Russia's firm stand against the U. S. plan it had been believed she might invoke the big power veto to block it.

Soviet Deputy Foreign Minister Andrei A. Gromyko gave his warning before the United Nations security council in a new effort to revive the Soviet working plan which already had been rejected by the commission for conventional armaments.

His challenge was taken up promptly by French delegate Alexandre Parodi and U. S. Representative Herschel V. Johnson, who announced their opposition to any substitute for the American plan.

Gromyko insisted that no program for arms regulation could

No Details of Flying Disk Are Revealed

Roswell Hardware Man and Wife Report Disk Seen

The intelligence office of the 509th Bombardment group at Roswell Army Air Field announced at noon today, that the field has come into possession of a flying saucer.

According to information released by the department, over authority of Maj. J. A. Marcel, intelligence officer, the disk was recovered on a ranch in the Roswell vicinity, after an unidentified rancher had notified Sheriff Geo. Wilcox, here, that he had found the instrument on his premises. Major Marcel and a detail from his department went to the ranch and recovered the disk, it was stated.

After the intelligence office here had inspected the instrument it was flown to "higher headquarters."

Margin Amendment to Remove from Rolls

July 8 (AP)—The House today voted to cut income tax 10,000,000 annually beginning next year, beginning in the Senate where approval is expected. The bill would provide for a 302 to 111, or more, vote in the House, a two-thirds majority vote in the Senate which may encourage a presidential veto, came from the House today. The bill would provide for a decisive vote in the House to be made by July 1, 1947 to Jan. 1, 1948.

The bill is identical with the President Truman's bill, but it is a different kind of bill. The effective date is July 1, 1947 to Jan. 1, 1948. The bill would provide for a decisive vote in the House to be made by July 1, 1947 to Jan. 1, 1948.

League Star Game

The National League today took a hit in its all-star game, which was held in St. Louis. The game was a 11-12 at Wrigley.

n Compares gress in ity Years

Chavez compared the progress in the county with that of 20 years ago. He said that the county had made a great deal of progress in the last 20 years.

He cited that 20 years ago the county had only 10,000 acres of land, but now it has 100,000 acres. He also mentioned that the county had made a great deal of progress in the last 20 years.

He also mentioned that the county had made a great deal of progress in the last 20 years. He also mentioned that the county had made a great deal of progress in the last 20 years.

Take Success, July 8 (AP)—The United Nations security council today approved an American blueprint for arms reduction discussions despite a Russian warning that the plan would bring about a collapse of arms regulation efforts.

The vote was 9 to 0, with Russia and Poland abstaining.

In view of Russia's firm stand against the U. S. plan, it had been believed she might invoke the big power veto to block it.

Soviet Deputy Foreign Minister Andrei A. Gromyko gave his warning before the United Nations security council in a new effort to revive the Soviet working plan which already had been rejected by the commission for conventional armaments.

His challenge was taken up promptly by French delegate Alexandre Parodi and U. S. Representative Herschel V. Johnson, who announced their opposition to any substitute for the American plan.

Gromyko insisted that no program for arms regulation could succeed unless the plan was linked directly with an absolute prohibition of atomic weapons.

He declared that the U. S. plan approved by the commission did not link the problems of arms reduction and the banning of atomic weapons and, for this reason, it offered no basis for a solution. Gromyko opened debate on the arms question as delegates awaited another major declaration from him later in the day in reply to United States and British demands for action to restore order in the critical Balkan situation.

Delegates agreed they were approaching perhaps the gravest moment in U. N. history.

Gromyko said the U. S. program was not a plan but merely a document outlining a series of broad generalizations. The Soviet proposals on the other hand, he said, offered specific points which should be dealt with, such as the regulation of war production, distribution of armed forces and military transport.

"It is obviously," Gromyko added, "that the commission cannot work out a plan without linking it to atomic control."

This is directly contrary to the main principle of the U. S. plan which provides that all atomic problems would be handled by the atomic energy commission and not by the commission for conventional armaments.

Some delegates saw in his speech an indication that he was preparing to invoke the big power veto to block council approval of the U. S. plan. Thus the threat of a veto hung over both the U. S. arms plan and a U. S. plan for stabilizing the disturbed Balkan situation.

The big question was whether Gromyko would invoke the veto to block an American proposal to set up a U. N. watch along Greece's northern border. Some delegates expressed belief Gromyko might give a definite answer to this question.

British Delegate Sir Alexander Cadogan already has declared that if the security council could not solve the Balkan problem, the United Nations might as well "pack up" and disband. U. S. representative Warren R. Austin was equally insistent that the council take some action—force it, if necessary.

Are Revealed

Roswell Hardware Man and Wife Report Disk Seen

The intelligence office of the 509th Bombardment group at Roswell Army Air Field announced at noon today that the field has come into possession of a flying saucer.

According to information released by the department, over authority of Maj. J. A. Marcel, intelligence officer, the disk was recovered on a ranch in the Roswell vicinity after an unidentified rancher had notified Sheriff Geo. Wilcox here, that he had found the instrument on his premises.

Major Marcel and a detail from his department went to the ranch and recovered the disk, it was stated.

After the intelligence office here had inspected the instrument it was flown to "higher headquarters."

The intelligence office stated that no details of the saucer's construction or its appearance had been revealed.

Mr. and Mrs. Dan Wilmot apparently were the only persons in Roswell who have seen what they thought was a flying disk.

They were sitting on their porch at 105 South Penn. last Wednesday night at about ten minutes before ten o'clock when a large glowing object zoomed out of the sky from the southeast, going in a northwesterly direction at a high rate of speed.

Wilmot called Mrs. Wilmot's attention to it and both ran down into the yard to watch. It was in sight less than a minute, perhaps 40 or 50 seconds, Wilmot estimated.

Wilmot said that it appeared to him to be about 1,500 feet high and going fast. He estimated between 400 and 500 miles per hour.

In appearance it looked oval in shape like two inverted saucers, faced mouth to mouth, or like two old type washbowls placed together in the same fashion. The entire body glowed as though light were showing through from inside, though not like it would be if a light were merely underneath.

From where he stood Wilmot said that the object looked to be about 5 feet in size, and making allowance for the distance it was from town he figured that it must have been 15 or 20 feet in diameter, though this was just a guess.

Wilmot said that he heard no sound but that Mrs. Wilmot said she heard a swishing sound for a very short time.

The object came into view from the southeast and disappeared over the treetops in the general vicinity of six-mile hill.

Wilmot, who is one of the most respected and reliable citizens in town, kept the story to himself hoping that someone else would come out and tell about having seen one, but finally today decided that he would go ahead and tell about seeing it. The announcement that the RAAF was in possession of one came only a few minutes after he had decided to release the details of what he had seen.

Miners and Operators Highest Wage Pact in

Washington, July 8 (AP)—An agreement averting a nationwide soft coal strike was signed today by John L. Lewis and a majority of the bituminous operators. In announcing the signing, Lewis told a news conference that it is reasonable to expect the entire industry will accept the agreement within a few days.

Washington, July 8 (AP)—An agreement under which 150,000 of the nation's soft coal miners will work when "willing and able" at the highest wage in history was signed today.

Harry M. Moses, representing the steel companies, and Charles O'Neill, of the northern commercial operators, signed for their operations employing the 150,000.

Other operators from the Midwest and Far West, who employ an additional 150,000 miners, were waiting their turn to put their signature to the pact, negotiated by Moses and O'Neill in days of dickering.

The ceremony was held in Lewis' offices at headquarters of his United Mine Workers.

Only the Southern group of operators, producers of about 25 per cent of the nation's coal, is left outside the ranks of those ready to meet Lewis' terms. Even they appeared willing to fall in line but

called a meeting first.

An official of the operators' union said immediately that the miners to report owned by the operators.

The men have a long history of quarrels with Lewis. Lewis had told of formal signing, before going back to work.

Lewis offered the operators to leave it basis. Its public by the N. I. C. declaring the "make possible full-scale operation" and the "also will be coal and many dependent upon coal said, but the opinion that the 1948 contract permits a five way to main of the nation."

The contract, July 1, 1948, provides for a 44 1/2 cent wage increase to \$13.05 a week. The 1947's second round wage increase in 1947 was \$12.00 a week. An eight-hour day, a nine-hour day, instead of 15 min.

3. A 10-cent-a-week-of 5 cents, to put welfare fund. It governed by a trust, made up of Horn, Cleveland UMW President, and member to be.

4. Agreement covers the "soft" of such time as willing and able.

Air Force General Says Army Not Doing Experiments

Portland, Ore., July 8 (AP)—The Oregonian said today that the Air Force General says the Army is not doing experiments.
